

Plier Type Crimp Tool

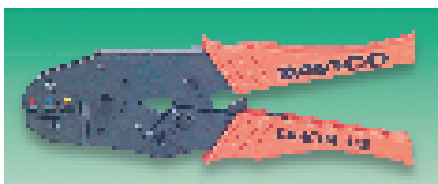

A low cost scissor action crimp tool for red, blue and yellow insulated crimp terminals. The tool also features a wire cutter, wire stripper (0.75–6.0mm²), bolt cutter (M2.6–M5) and a section for crimping non-insulated terminals (1.5–6.0mm²).

Mftrs. List No. DHC15

.150-353				

Ratchet Crimp Tool

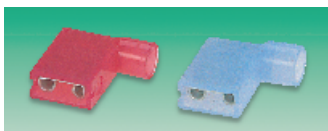

An adjustable ratchet crimp tool for pre-insulated terminals. The tool crimps red, blue and yellow insulated terminals and features simultaneous compression of both conductor and insulation. During the crimping process a digit is indented above the conductor crimp to verify correct usage i.e. Red = 1, Blue = 2 and Yellow = 5.

Mftrs. List No. DHCR15

Heat Shrinkable Duraseal

- Protects against water, condensation, salt and corrosion
- Provides strain relief
- Protects against vibration
- Completely insulates and protects electrical terminations
- UL and CUL 91J4, File E87681, Lloyds Listed 65247HH02-93

Temperature range -55 to 125°C
Dielectric strength 1000V

Insulation resistance 10MΩ
Chemical/fluid resistant

Miniature Conductor Range

- Designed for smaller cross sectional area cable
- Smaller insulation sleeve diameter gives improved crimp profile on cable insulation

Conductor size: yellow 0.2-0.5 sq. mm Single strand 0.35 - 0.7mm
