

Chemical Fixings – Chemset

Zinc-Plated

- A chemical fixing system that is resistant to vibration and pulsating load
- The lack of expansion stresses makes Chemset ideal for setting close to edges or in groups with close spacings
- Chemset may be used overhead
- The polyester resin is fast-curing
- Grade 5.8 zinc-plated studs
- Each box of studs supplied with a free hexagon driver for use in a 3-jaw chuck

Thin Sheet Nutsert™ Kit

AVDEL

- Placed quickly and easily by hand
- One-piece, vibration proof
- Forms a strong deep steel thread on thin sheet down to a thickness of 0.020" (0.51mm)
- Replacement mandrels supplied with nosepiece are available separately

Each kit comprises:

Nutsert lever hand tool assembly	1	3mm Thin sheet Nutsert	20
3mm conversion kit	1	4mm Thin sheet Nutsert	20
4mm conversion kit	1	5mm Thin sheet Nutsert	20
5mm conversion kit	1	6mm Thin sheet Nutsert	20
6mm conversion kit	1
