Gas Springs

Gas Springs

- Supplied at full force with a release valve
- The force of the gas spring can be reduced to meet your requirements
- The release of gas (i.e. force) is achieved with an extremely reliable and safe aircraft-standard valve
- Pack contains two gas springs, four metal ball joints, four metal eyes, a release valve key, full instructions on how to release gas and a safety instruction leaflet

The plunger is hard chrome finished steel with a black power epoxy coated steel body.
