

Magnification — continued

Spectacle, Clip On Magnifier

- Magnifier is designed to clip onto a pair of spectacles
- Can be flipped up out of the line of sight
- Held in place on the spectacle lens by a pair of clips
- With soft plastic covers
- A high quality optical polymer which is scratch resistant

H = 50, W = 35, D = 11

Inspection/Measurement Magnifier

- An ideal inspection tool for quality control
- Eye lens can be focused to accommodate sight irregularities and the focus setting locked if desired
- Base allows light onto the inspection area
- The field of view is 25mm
- Graticules can be mounted in the base ring
- Two styles, 0 to 25mm and 0±12mm centre zero, each is divided down to 0.1mm

H = 57, Dia = 40
