

## Gas Soldering Iron — 'Portasol'

**portasol**

148-636 L = 175, Dia = 19

148-710 Tip width = 1.0mm    148-637 Tip width = 2.4mm    148-638 Tip width = 3.2mm    148-639 Tip width = 4.8mm

- Economical, pocket sized portable soldering iron
- Temperature variable up to 400°C
- Heat output equivalent to a 10 to 60W soldering iron
- Powered by standard butane lighter fuel
- One refill gives up to sixty minutes continuous use
- Safety gas cut off cap incorporating a flint lighter
- Tips incorporate a catalytic converter for flame-free general purpose soldering
- Unit is supplied with a 2.4mm tip, with a range of replacement tips available

Note: For safety reasons the iron is supplied discharged of gas.

## Gas Soldering Iron — 'Portasol Professional Kit'

**portasol**

Case H = 35, W = 230, D = 80

106-602    106-603    106-604    106-605  
106-606    106-607    106-608    493-831

- Versatile, fully portable heat tool kit
- Runs off standard butane lighter fuel
- Single refill lasts up to 90 minutes
- Variable heat control
- Safety gas cut off cap with integral flint igniter
- Kit contains a pocket sized gas tool and four special purpose screw-in tips, gas tool stand and cleaning sponge, all housed in a tough polypropylene carry case

### Standard Soldering Tip

- Output power 10-60W
- Catalytic converter for flame free general purpose soldering

### Hot knife tip

- Also contains catalytic converter
- Ideal for use on plastics, nylon and synthetic materials

### Blow torch tip

- Up to 1300°C operating temperature
- For light brazing, heavy soldering and plastic working

### Hot blow tip

- Up to 400°C operating temperature
- Suitable for heat shrinking, defrosting and rapid drying over small areas
- Not supplied in kit

### 60W High power tip

- Designed for heavy duty, intense soldering
- Enclosed catalytic converter
- Tip width 4mm
- Designed for difficult high capacity soldering tasks
- Not supplied in kit

Note: Professional tips are not interchangeable with other models.

## Gas Soldering Iron 'SuperPro'

**portasol**

Case H = 45, W = 295, D = 90

493-739 Tip width = 1.0mm    493-740 Tip width = 2.4mm    493-752 Tip width = 3.2mm    493-764 Tip width = 4.8mm    493-776 Hot Blow  
493-788 Tip width = 1.0mm    493-790 Tip width = 2.4mm    493-806 Tip width = 3.2mm    493-818 Tip width = 4.8mm    493-820 Knife tip

- High performance fully portable heat tool
- Power output of 25 to 125W
- Medium to heavy duty soldering applications
- Maximum tip temperature of 580°C
- Blow torch with maximum temperature output of 1200°C
- Ideal for heat shrinking, defrosting and rapid drying over small areas
- Use of knife tip allows unit to be used as versatile cutting tool
- Tip design encloses and protects catalytic converter from damage
- For user convenience includes a piezo ignition system
- Stainless steel reservoir holds sufficient gas for 2 hours continuous use on mid setting

**Kit Contains:** 1 iron, 1 soldering tip, 1 hot air tip, 1 Knife tip and a sponge tray.

Note: For safety reasons the iron is supplied discharged of gas.
