

## Ersa Portable Gas Soldering

### Independent 60

- Easy to handle gas soldering set
- Idea for repair and service
- Operated with custom butane gas
- One gas cartridge contains 65ml
- Supplied with tip G152KN
- Ignition integrated in cap

**New**

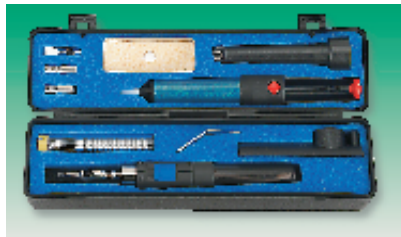

Output: 10-60W  
 Operating time with one gas filling: 90min  
 Heat up time: 40s  
 Tip Temperature: max. 400°C  
 Weight: 45g

## Vulkan Portable Gas Soldering Irons

### P100 Gas Soldering Irons

- GS-TUV accredited gas soldering iron and kit PS100
- Gas iron equivalent to a 120W electric iron
- Long life metal catalyst
- Simple replacement flint ignitor in the safety cap
- Translucent and shatterproof fuel tank giving gas level indication
- Solid steel soldering tip
- Variable adjuster to fine control fuel usage from 45 mins at max to over 90 min
- Self venting refill valve for easy gas refill
- Weighs only 50 grams

**New**

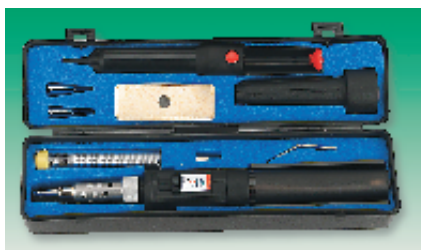

#### P100KX – Kit

contents: P100 gas iron complete with 2.4mm chisel tip, safety cap & flint ignitor, aluminium tray, stand & wetting sponge, tube of solder, blow torch tip (VT-5), hot air tip (VT-6), hot knife tip (VT-4), desoldering pump all complete in a plastic tool box.

### P200 Gas Soldering Irons

**New**

- GS-TUV accredited gas soldering iron and kit

#### P200

- Piezo auto ignition heavy duty gas iron
- Translucent and shatterproof fuel tank giving gas level indication
- Equivalent to a 135 watt electric soldering iron
- Long life metal catalyst
- Variable adjuster to fine control fuel usage from 60 mins at max to over 180 min
- Self venting refill valve for easy gas refill
- Tool incorporates blow torch as standard
- Stable blow torch for windy conditions
- Safety cap can be replaced over hot tip and automatically cuts off gas flow
- Solid steel soldering tip
- Weighs only 107 grams

#### P200KX – Kit

- Kit designed to facilitate the repair and maintenance of most electrical and electronic soldered assemblies

Contents: P200 gas iron complete with 2.4mm chisel tip & blow torch, safety cap, aluminium tray, stand & cleaning sponge, tube of solder, hot air tip (VP-10), hot knife tip (VP-9), desoldering pump all complete in a plastic tool box.

## Weller Portable Ni-Cd Powered Iron

### Battery Soldering Iron – WC100

H = 29, W = 30, L = 122 (body only)

- Cordless 15W soldering iron ideal for technicians and field service engineers
- Heats up in 6 seconds, maximum temperature in excess of 800°F
- Fully charged in 12 hours. Long life nickel cadmium batteries
- Supplied with battery charge
- Built in worklight
