'Electronic' Series  
Box Joint

CK

Best Value

- Range of cutters and pliers designed to give long and reliable service in production
- Cutting edges are hollow ground for improved performance
- Forged box joint construction gives strength and precision
- Mirror polish finish
- Cutters designed specifically for use with surface mount devices, have extremely fine cutting edges

- Leaf springs are spot welded to the tool handles to hold the jaws in a comfortable position
- Available with two types of handle cover, PVC dipped or static dissipative thermo-plastic
- PVC dipped gives good grip without making the tool bulky
- Static dissipative handles have a conductivity value of 10<sup>5</sup>Ω, to be effective they must be used with suitable wrist straps, see section 25.5

TEE269

Side Cutters

Blade length = 9,  
Overall length = 110,  
Blade angle = 15°  
Cutting capacity  
0.6mm Iron wire  
1.0mm Copper wire
