Wire Stripper and Cutter

IDEAL

Overall length = 152

The specially ground cutting edges ensure a clean cut around the entire circumference of the insulation enabling the insulation to be easily removed from the conductor.

The 45-121 and 45-216 are designed to strip and cut stranded wires, the 45-215 is designed to strip and cut solid wires.

The 45-215 and 45-216 have better sleeves on the handles. They are broader and more comfortable than the 45-121.

These tools are suitable for the following wire sizes.

45-121 and 45-216 Stranded Wire
