## Face Shields and Visors

### Eclipse Face Shield

- Extremely light and fully adjustable
- Made from a mix of fibreglass, nylon and PVC
- Comes complete with a clear 230mm visor, either polycarbonate or acetate
- Weight: 352 grams

**Polycarbonate** shield is Medium Energy (or grade 1) impact resistant, chemical and molten metal resistant; kite marked to **BSEN 166 2B 39** equivalent to **BS 2092 Grade 1, C, M**.

**Acetate** shield is Low Energy (or Grade 2) impact and chemical resistant; kite marked to **BSEN 166 2F 3** equivalent to **BS 2092 Grade 2, C**. Also the Acetate shield is more resistant to attack from thinners and is therefore better suited to those using paints.
