## Heavy Duty Rechargeable Hand Lamp

**NITECH**

201-819 H = 140, W = 125, D = 220

This torch has been designed, constructed and tested to military standards and is well suited to all commercial, industrial, public sector and military uses.

The battery supplied with the torch is unique in that it has a built-in charging circuit. For details of the battery see Order Code 207-901 page 26. In practise the user simply connects to 8 to 30V ac or dc, or 120 to 240V ac with the leads provided, and charges the torch for 12 to 14 hours. Once charged the torch will give 4 hours continuous operation. The battery can be charged up to 3000 times.

Features include:

- Yellow high density polyethylene body
- Resistant to water, oils, chemicals and extreme temperatures
- Patented lens system gives a 50,000 candle power beam with a range of over 800 metres
- Floats lens up
- Approved by a number of police, fire and ambulance authorities also by BR, CEGB and HM coastguard
- Approvals: **TUV/VDE, SEV, SEMKO, NEMKO, DEMKO and FEMKO**

Mfrs. List Nos. 2500H = 201-807, 550H = 201-819, N300 = 201-820
