Audio Entry Systems

Standard 5 Wire Door Entry Kit

VIDEX

A standard, audio door entry system that utilises 4 common wires plus 1 per handset. This kit comes complete with a door station surface/flush mount, 1 or 2 handsets, depending on which kit is purchased, and power supply.

The door station has a stainless steel finish and is supplied with a rain shield, all packed in a briefcase-style carry case.

- Surface of flush mount door station
- Wall mount audio handset
- Compatible with most 12V ac lock releases
- Comes packed in an attractive carry case

2 Way Surface Mount Kit	354-0390		
Additional Audio Handset	354-0467		

True Two Wire Audio Door Entry Kit

VIDEX

This kit allows a complete door entry system using only two wires between the door unit and the indoor unit. With electronic call tone, plus the facility for a second handset to be wired in parallel, and an extension sounder.

- Modular push button panel
- Available flush or surface mount complete with rain shield
- Stylish handset with door release
- Includes power supply

1 Way Kit Flush Mount	354-0418		
1 Way Kit Surface Mount	354-0420		
Additional Audio Handset	354-0431		

Telephone Interface Door Entry Kit

VIDEX

This kit is a single button, flush or surface mount system which allows a conventional telephone to be used in place of a standard door entry handset. The telephone can be either tone or pulse dial.

It is possible to do the following using a conventional telephone:

- Make and receive outside calls on a normal ring tone
- Receive calls from the door station on a quick double ring tone
- Open the speech lines to the door
- Open the door
- Place a call on hold (with background music), while another call is answered
- Complete with door station, power supply, phone socket and interface

1 Way Flush Mount Kit	354-0443		
1 Way Surface Mount Kit	354-0455		

Door Entry Kit

VIDEX

A one-to-one audio door entry kit with the addition of a digital codelock module with 2 codes and 2 relay outputs finished in stainless steel with a rain shield. This is a five-wire system with one extra wire required per additional audio handset.

- Surface or flush mount door station
- Integral codelock keypad
- Wall mount audio handset
- Compatible with most 12V ac lock releases
