

**Combination pliers, 2628G ergo®**

**ISO:** 5746

**DIN:** 5746

**Finish:** black oxidised, anti-corrosion treated.

**Material:** Chrome-Vanadium steel. With Ergo handles in two-material combination. Thermoplastic surface on tough polypropylene which gives a superior grip.

**Shape:** an "open" joint, in which the distance from the joint centre to the cutting edges is reduced, results in greater leverage and increased cutting capacity. Equipped with return spring with on/off function. Round shaped jaws give improved accessibility in confined spaces.

**Application:** the edges specially designed to cut harder material such as piano wire and spring steel wire. Gripping surfaces particularly suited for gripping round and flat material.

**Cutting capacity:** piano wire.
