

TNC Connectors

Product Facts

- Lightweight miniature connector operating between DC to 11 GHz
- Threaded couplings to ensure positive engagement under vibration and shock application
- Wide variety of mounting styles and cable options
- Crimp and solder clamp termination options allow design flexibility
- Available in nickel/gold and silver/silver plating options for specific applications

The Greenpar TNC RF connector family 7/16-28 threaded couplings, provides low noise levels and optimum stability, and can withstand the shock and vibration often present in hostile environments.

Available in 50 & 75 Ohm versions, these connectors feature numerous styles including cable plugs and jacks and adaptor connectors. These connectors accept a wide range of coaxial cables and are intermateable with industry standard connectors designed to MIL-C-39012 specifications.
