The new IXO

[▶ Description](#)[▶ Application](#)[▶ Technical data](#)

It's ready when you are.

Self-discharge? Memory effect? Not a chance!
The IXO does all of the above easily.

Thanks to its lithium-ion technology it still has power, even if you haven't used it for a while. And you can simply put it onto the charging station after every application without having to worry about it – irrespective of whether the battery is full, half-full or empty.

What can the IXO do?

One for all.

Whatever you would like to do around your home, the IXO is ready for all screwdriving work at any time.

Thanks to its lithium-ion technology it still has power, even if you haven't used it for a while.

Lithium-ion technology makes it possible to equip the IXO with an extremely small battery. Result: No other cordless drill/driver is lighter and handier than the IXO.

You can take the IXO wherever you want to go. It also proves to be a helpful accompaniment, even in your leisure time.
