353-0802

SOLID FATIGUE STEP

KEY FEATURES

0796

- Extremely comfortable to stand on and provides excellent levels of fatigue-relief.
- Made from an extremely durable rubber.
- Can withstand high temperature environments, including spillage of hot metal or molten glass.
- Interlocking tiles allow unusual shaped areas to be fitted with ease.
- Isolated tiles can be replaced without the need to re-mat the entire area.

SUITABLE APPLICATIONS

♦Wet/Oily and **Dry** environments.

♦ Ideal for INDUSTRIAL use, and its ability to withstand high temperatures makes it suitable for WELDING BAY areas or other applications where spillage of hot materials may occur. ♦ Very effective anti-fatigue properties, therefore ideal for areas where employees stand

for prolonged periods.
